 - Lack of sufficient credit informationLoans using the Comparable Credit Criteria must be submitted to the CMG MI Underwriting Network for review.

- Loans with nontraditional credit are not eligible for delivery via the CMG MI delegated channel. They must be submitted to the CMG MI Underwriting Network for review.
- Maximum 95% LTV
- For pricing purposes, nontraditional credit will be treated as comparable to a 620 loan representative credit score.
- When the borrower has established little or no traditional credit, nontraditional credit sources must be verified to evaluate the borrower's history of making regular payments to a third party and to establish his/her paying habits on those obligations. Nontraditional credit should be used to build a credit profile and not as a compensating factor to offset derogatory credit.
- In an instance where a nontraditional credit history is to be developed, the following conditions must be reported on the borrower's credit report:
 - The borrower has no FICO score due to no credit record with a repository; or
 - The borrower has a low FICO score; there is no history of delinquency in the file and the reason codes list lack of credit accounts, accounts not opened long enough, or lack of usage as the reason. A FICO credit score based on fewer than three trades will be considered unusable. A merged credit report may report three or more trades in total. However, a credit score determined by using

less than three trades from an individual repository is also considered unusable.

In the event the credit report reflects a low FICO score for the borrower due to lack of sufficient information, it is then appropriate to build a profile based on nontraditional sources.

- Nontraditional credit should be verified and compiled by an independent credit reporting agency. Favorable as well as unfavorable credit references should be provided by the lender. A minimum of 4 open accounts with a 12-month history of payments should be provided. Some sources for verifying nontraditional credit may include:
 - Rent/mortgage payments (current and previous residences)
 - Utility payments (gas, electricity, water, trash collection)
