Credit History

- Minimum of one credit score is required for each borrower, regardless of DU or LP recommendations. The credit report must be no more than 90 days old on the date the mortgage note is signed
- Although a credit score can be generated with one trade line, CMG MI does not consider the credit score valid unless at least three open and active trade lines are evaluated for a minimum of 12 months. The validity of the credit score and the number of trade lines is of importance if the credit history is "thin" or limited. Thin credit refers to a file of credit information that contains very little data about the borrower's use of credit, most likely because there isn't a long history of credit use upon which to judge repayment ability. The valid credit score policy does not apply to all borrowers. Borrowers who have a lengthy and in-depth credit history (multiple years and multiple active, inactive and closed accounts) do not have a credit score validity issue, and are not required to have three open and active accounts to qualify, although the minimum loan representative credit scores specified in these guidelines nonetheless apply
- The loan representative credit score will be determined using the lower/middle method; the lowest borrower score will be used
